APPLICANT : KINUGAWA RUBBER IND CO LTD;

INVENTOR : TAKAMATSU KAZUNORI;

INT.CL. : B60R 13/02

TITLE : CORE METAL FOR TRIMMER

ABSTRACT : PURPOSE: To make possible the titled core metal to be suitably mounted to the flange of a partner member, by connecting strip-like ribs through suitable ribs so that the core metal can be bent in all directions.

CONSTITUTION: The core metal 11 that has been cut out from a sheet metal by pressing has on both ends the strip-like ribs 12 that are equi-spaced and connected by first web 13. The every other opposite webs 13 are connected by a central second web 14. The first web 13 between the adjacent ribs 12, 12 connected by the second web 14 has a cutting slit 15. A converging member 6 is extruded to the outside of this core material to form the trimmer.
